

# US 1 Corridor Feasibility Study

Thank you for your interest in the US 1 Corridor Feasibility Study! The Central Midlands Council of Governments (CMCOG) aims to address accommodations for growth and change along US 1 from Spears Creek Church Road to Watts Hill Road. Your feedback is integral to the corridor's continued success.

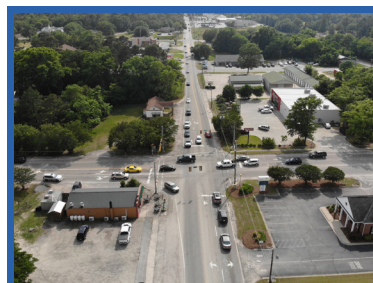

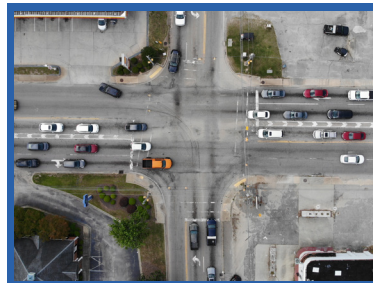

The project team is analyzing crashes and traffic congestion points for the entire length of the project corridor. Twenty (20) intersections have been analyzed in even greater detail, and traffic counts have been gathered at each of these intersections (see map on back on for detailed locations).

## GET INVOLVED

- 1 Scan the QR code to answer the survey:
