

Columbia Area Metropolitan Planning Organization
Central Midlands Council of Governments

FY 2022 Annual Listing of Obligated Projects

October 1, 2021 – September 30, 2022

About CMCOG

The Central Midland Council of Governments (CMCOG) is the designated Metropolitan Planning Organization (MPO) responsible for carrying out the urban transportation planning process for the Columbia Area Transportation Study (COATS). The COATS MPO study area boundary includes large portions of Richland and Lexington Counties and small portions of Calhoun and Kershaw Counties. The primary responsibilities of any MPO are to: 1) develop a Long Range Transportation Plan, which is the 30-year transportation vision for the metropolitan area; 2) develop a Transportation Improvement Program, which is the agreed-upon list of specific projects for which federal funds are anticipated; and 3) develop a Unified Planning Work Program (UPWP), which identifies in a single document the annual transportation planning activities that are to be undertaken in support of the goals, objectives and actions established in the Long-Range Transportation Plan.

As the MPO, CMCOG provides the forum for cooperative decision making in developing regional transportation plans and programs to meet changing needs. It is composed of elected and appointed officials representing local, state and federal governments or agencies having interest or responsibility in comprehensive transportation planning.

CMCOG Member Jurisdictions

MPO Municipalities:

City of Cayce
City of Columbia
City of Forest Acres
Town of Irmo
Town of Lexington
Town of Springdale
City of West Columbia
Town of Blythewood

Non-MPO Municipalities:

Town of Batesburg-Leesville
City of Newberry
Town of Winnsboro

Counties:

Fairfield County
Lexington County
Newberry County
Richland County

Other:

Calhoun County
Kershaw County

About COATS

The Columbia Area Transportation Study or COATS, is the cooperative effort by the participating member governments, transportation providers, and many other interested parties to develop a long-range transportation plan for the metropolitan area.

The preparation and publication of this document was financed in part by federal funds provided by the U.S. Department of Transportation through the Federal Highway Administration, Federal Transit Administration and the South Carolina Department of Transportation.

COATS 2022

Purpose of this Report

As revised by the SAFETEA-LU, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(4)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(4)(B) require “...an Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. The listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program (TIP).”

This provision is intended to increase the transparency of government spending on transportation projects and strategies in metropolitan areas to State and local officials, and to the public at large. Realizing this objective involves promoting accuracy and responsiveness in financial planning and adoption of a proactive approach to sharing information with the public in a meaningful way, at an appropriate time, and in a user-friendly format. This report responds to the directive. It lists all transportation projects in the Columbia Area Transportation Study Boundary that were obligated in federal fiscal year 2022 (October 1, 2021 - September 30, 2022).

The Federal Highway Administration (FHWA) defines obligation as the Federal government’s legal commitment (promise) to pay or reimburse the States or other entities for the Federal share of a project’s eligible costs. An obligated project is one that has been approved by the federal government for reimbursement. These projects may or may not have been started or completed in this year. The obligated project cost reflected in this report also may not be equal to the final project cost.

FY 2022 Annual Listing of Obligated Projects
